

PASSION FOR BETTER

Pergo is a dynamic medical company established upon 35+ years of industry experience.

We research, develop and manufacture patented single/multi-use, active and intelligent devices for global markets. We aim to be the most respected medical device design and manufacturing company in the World.

Pergo Principles

- Creative
- Fast
- Irreapachable
- Reliable

Mission

To develop, produce and distribute single and multiple use active and intelligent devices with an innovative understanding.

Vision

Maintaining our presence as a world brand.

INDEX

5 Suction Management

8 Operating Room

11 Gynecology

12 Neonatal & Surgial Equipment Covers

14 Endoscopy

Suction Liner System

- %100 inline robotic quality controlled production. No defected product leaves the factory.
- Highly flexible and transparent suction liner bag.
 - Super durable. Product would not damage even under toughest transport conditions or application.
 - Less transport cost. Approximately %65 less box dimension compared to the same quantity of traditional liners.
 - Less storage cost.
 - Less waste to the environment.
 - Economic.
- Centralized and ergonomic removal handles.
 - Easy suction liner removal with only one hand.
- As soon as suction liner is assembled into the canister, system is ready to use. No additional vacuum connection required.
- Wide measuring scale for easy reading.
- Built-in brackets of canisters provides easy mounting on walls, rail supports and trolleys.
- Patented folding system.
 - Easy set up of liner into canister.
 - Easy removal of liner from the canister.
- FDA registered.
- CE marked.
- Latex free.

Face Shield

- Light.
- Ergonomic.
- Anti-Fog.
- Can be used along with eyeglasses and masks.
- Soft forehead sponge provides long hours use of the face shield without any discomfort.
- Double sided protection layers prevent the film against scratches and dirt, can be easily peeled off before use.

05TD3119 Clear Vision Comfort Face Shiled Eco
05TD3120 Clear Vision Comfort Face Shiled Eco L

Skin Preparation Glove

- Easy collection of shaved hair before surgeries.
- Faster application with the large adhesive/collection area.
- Does not irritate skin with the optimized medical adhesion.
- Can be applied both on flat and curved areas.
- Reduces surgical site contamination risk.
- Reduces post procedural infection risk.
- Avoids contamination with reverse removal design.
- Latex free.

05TD0003 Skin Preparation Glove

Eye Safety Type

- Easy, fast application and removal.
- Coloured, ergonomic and non-sticky handle.
- Designed to fit eye anatomy perfectly.
- Transparent structure allows 'easy pupil dilation control' at any time without removing the Eye Safety Tape.
- Does not hurt skin, eyebrows and eyelashes while removing (post operation).
- Protects eyes from external splashes during the operation.
- Eyes do not dry out even during long (4 hours +) operations.
- Medical grade material avoids any skin irritation.
- Reduces corneal abrasion risk.
- Hypoallergic, breathable and medical grade material.
- Patent protected.
- Latex free.

05TD0012 Eye Safety Tape Adult
05TD0020 Eye Safety Tape Pediatric

Clear Vision

- Light.
- Ergonomic.
- Antibacterial, reusable frame with different colors.
- Easily replaceable super clear disposable lens.
- Can be fitted onto prescription eyewear and surgical masks.
- Large lens provides full protection for the eye and its surroundings.
- Anti-Fog.
- Patent protected.
- Latex free.

05TD0161 Clear Vision Lens DS (Single Use)
05TD0195 Clear Vision Frame Red (Reusable)

 Clear Vision Frame White (Reusable)
 Clear Vision Frame Mixed Colours (Reusable)

OPERATING ROOM

Airway Tape

- Single use, one pair per patient, no cross contamination risk.
- Colorful, ergonomic and non-sticky handles (easy application and removal).
- Hypoallergenic and medical grade material prevents skin irritation.
- Do not leave any adhesive on the skin.
- Latex free.

05TD2928 Airway Tape

PostPartum Balloon

- 100% Silicone balloon and catheter for maximum patient comfort.
- Pear shaped balloon perfectly fits to uterine anatomy.
- Does not require any surgical operation for removal.
- Dual lumen catheter allows inflating balloon and monitoring hemorrhage.
- Set includes two syringes for rapid inflation of balloon.
- Bag spike is equipped with check valve.
- Custom design three way stopcock for easy, safe and rapid inflation of balloon.
- Balloon can take upto 5000 ml saline water. Considerably superior than other available products in the market.

05TD0206 PostPartum Balloon

NEONATAL & SURGICAL EQUIPMENT COVERS

Umbilical Catheter

- Catheter length: 40 cm.
- 3.5 Fr, 5 Fr and 7 Fr outer diameters.
- Can be used in Arterial and Ven catheterization.
- TPU (Thermosensitive Polyurethane) catheter.
- Thermosensitive material provides sufficient rigidity while entering the vein and softens after entering to the body.
- Scale between 4-25 cm.
- Rounded tip prevents irreparable damage to the vein.
- Radiopaque.
- DEHP free.
- Latex free.

05TD1721 Umbilical Catheter 3,5 Fr

05TD1722

Umbilical Catheter 5 Fr

05TD1723

Umbilical Catheter 7 Fr

SURGICAL EQUIPMENT COVERS

Probe Cover

- Reduces hospital infection rates.
- Offers additional sterile protection during procedures.
- Available in different lengths for complete coverage from transducer array to connector.
- Easy application thanks to telescopic folding by robots (no hand touch).
- Patented Adhesive model is used without any ultrasonic gel.
- Telescopic folded by robots without any human contact. Lowest possible bioburden level before sterilization.
- Latex free.

05TD0083 Probe Cover with Adhesive 18 x 80 cm

05TD0423 Probe Cover 14 x 80 cm

05TD0426 Probe Cover 14 x 120 cm

05TD0429 Probe Cover 14 x 160 cm

Biopsy Valve

- Single use.
- Patented functional design.
- Compatible with Olympus, Pentax and Fujinon endoscopes.
- Reduces cross contamination risk.
- Leakage and splash minimization.
- Sterile / Non-sterile options available.
- Latex free.

05TD0010 Biopsy Valve Olympus-Fujinon Sterile
05TD0029 Biopsy Valve Pentax Sterile
05TD0054 Biopsy Valve Olympus-Fujinon

05TD0031 Biopsy Valve Pentax
05TD0364 Biopsy Valve Olympus-Fujinon
 Non-Sterile Single Package

Endocage

- Patented design.
- Semi-disposable.
- Re-openable lock if / when an accessory is left out by mistake.
- Easy hook onto the scope.
- Large inner volume.
- Product designed to allow maximum penetration of cleaning fluid.
- Latex free.

05TD0130 Endocage

ERCP Drape

- Four pockets for forceps and tools.
- Fixed from 3 different location for maximum stability.
- High liquid absorption.
- Extra strong adhesive fixation tapes.
- Latex free.

05TD0205 ERCP Drape

Co2 Tubing Set

- Universal design.
- Compatible with any disposable water bottle system.
- Works effectively with any insufflator in the market.
- Compatible with Olympus, Fujinon and Pentax endoscopes.
- Simple set up luer connections.
- Tubing can be disposed at the end of each day.
- Features a hydrophobic filter to prevent back-flow of water into the insufflator.
- Latex free.

05TD0165 Endoscopy Insufflation CO2 Tubing Set

AWS Valve Set

- Patent pending for Air-Water and Suction Valves, Patented Biopsy Valve.
- Compatible with 140/160/180/190/240/260 Olympus GI Endoscopes.
- Highest suction rate among all other single use Valve Sets.
- Color coded Air-Water and Suction Valves.
- Easy removal of Air/Water and Suction Valves from the scope via outer ring form.
- Superior durability of Air/Water and Suction Valves more than 1000 times pressing.
- Easy mounting and dismounting of Water Jet Connector to the scope via optimized design.
- Perfect backflow prevention performance up to 4 bar negative pressure for Water Jet Connector.

- 05TD1191** Air/Water and Suction Valve Sterile (2-piece kit)
05TD3607 Air/Water, Suction and Biopsy Valve Sterile (3-piece kit)
05TD1636 Air/Water, Suction, Biopsy Valve and Auxiliary Water Jet Connector Sterile (4-piece kit)
05TD4581 Air/Water, Suction, Biopsy Valve, Auxiliary Water Jet Connector and Air/Water Cleaning Adapter Sterile (5-piece kit)
